AN EAST COAST HIGHWAY.

Senator Mann Thinks That the Building of Such a Road Is Not Far Distant.

New League Is Needed.

The question of road building is a topic that is occupying the attention of automobileists and others in Volusia County at the present time, and the general opinion is that something should be done to further improve the road conditions. A plan that has been often taken up and spoken of, would be to build a road the entire length of the East Coast, stretching from Jacksonville to Miami. Many think that such an undertaking would be feasible, but it is the general opinion that the ball should be started to rolling and something done to get renewed activity and interest into the scheme.

Nearly two years ago a good roads league, composed of several hundred influential citizens, was organized in St. Augustine and for a time it looked as if there would be immediate action taken for the construction of a great highway along the eastern section of the State. Interest in the league lagged for want of some one to engineer the matter, and keep the league and road question constantly before the public.

This league, which was known as the East Coast Good Roads League, has practically gone out of existence, but

SCENE OF DISORDER.

Signs and Benches Obstructed the Sidewalks on Beach Street.—The Marshal After Offenders.

The Marshal was hot on the trail, early Thursday morning, of several youths, who took it upon themselves to have a good time, in the way of tearing away some of the signs in front of places of business, on Beach Street, and obstructing the sidewalk with them.

Signs of every description, and benches, were lying carelessly across the sidewalks, between the hours of 2 and 4 o'clock in the morning, and the scene was one of general disorder. The Marshal says that he is still on the lookout for these rascals, and he hopes before long to bring them before the Mayor to answer the charges which he will prefer against them.

WINE MADE AT HOME

May be Sold in Quantities Without Violating the Law, Decides Judge Minor S. Jones.

The DeLand Supplement says: "The decision of Judge Jones in a case recently appealed from the Criminal Court of Record, by Messrs. Landis & Fish, will be of considerable interest to owners of vineyards and manufacturers of domestic wines. In this case in the Criminal Court of Record, Marie Linderman, a German woman from Ormond, was indicted for selling domestic wine of her own manufacture. She plead guilty to the fact, but denied that it was a crime under our statutes. She was fined \$1 and costs, and pending an appeal, other cases of a similar nature against other parties were continued. Messrs. Landis & Fish carried the case on appeal to Judge Jones of the Circuit Court, who reversed the finding of the Criminal Court of Record. Under this ruling of Judge Jones, owners of vineyards can manufacture wines and sell them in quantities of not less than one quart.

BULL DOG IN CITY JAIL.

Vicious Animal That Has Been Roaming the Streets Has Been Placed in the City Lockup.

The DeLand Supplement says: "The DeLand jail, is a dangerous bull dog, that was placed there yesterday. Last night it was decided that it was unsafe to have the dog loose in the main portion of the jail and the marshal and the owner of the dog placed the animal in a separate cell.

For sometime past this dog, which is owned by Charles Pope, has created somewhat of a disturbance among owners of other dogs, for it has a mania for biting and already it has bitten several, two of which have died. There have been numerous kicks registered at the mayor's office as to the dog, and His Honor decided that something should be done to guard the public from such a vicious animal.

Communicated.

Editor Daily News:

Recently, I have read several communications in your paper relative to the speeding of automobiles, but I want to say that it is not only the automobileists who are guilty of violating the law, for there are some hackmen and also drivers of private vehicles who race on some of our thoroughfares. The speed limit for carriages, I understand, is six miles an hour, but there are dozens of carriage drivers who take the liberty to go as fast as ten or fifteen miles an hour. Now I am not taking the part of automobile drivers, in the least, because I know there are offenders in both classes.

AUTO DRIVER.

Editor Daily News:

I have read accounts, recently, where the marshal and his assistants were making an effort to impound stray cattle. They do not, however, seem to have met with great success, as for the past several nights, I have seen at times, no less than a half dozen cows wandering in the southern section of the city. I think the Council should appoint some one to the position of stock impounder, and give him a liberal commission on the amount of revenue taken in.

Grand Atlantic Dance.

The opening dance at the Grand Atlantic last night was in every way a success, and thoroughly enjoyed by the guests of the hotel as well as many of the cottage people and guests from other hotels. Delicous refreshments were served and the management left not a thing undone for the enjoyment of those present. Dancing commenced promptly at nine and continued until midnight.

The music was excellent and Prof. Thompson, with his six-piece orchestra, had encores to every dance. The dances will be held every Friday evening, and all those holding invitations are cordially invited to attend.

ATTEMPTED JAIL DELIVERY.

Three Convicted Murderers Caught in the Act of Taking French Leave From the County Bastile.

The negro who was attempting to regain his liberty, was Newton, the convicted murderer. This negro was convicted of murder at the last term of the Circuit Court, and sentenced to hang, and his case is now on appeal in the Supreme Court. Another negro, charged with murder, was also confined in jail, and two others, charged with breaking and entering. The negro woman under sentence of death by hanging, was in the female department in another part of the building.

Teacher's Institute.

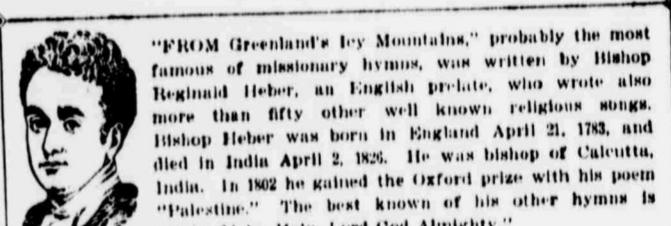

The public schools will close Tuesday afternoon of next week, in order to give the teachers an opportunity to attend the County Teacher's Institute, which convenes at DeLand the following day. Many of the teachers will avail themselves of the chance to attend the meetings, which are held yearly. Several interesting addresses, by well known educators, will be made, and it is expected that the session will be a very profitable one.

A Hymn for Today

FROM GREENLAND'S ICY MOUNTAINS

By Reginald Heber

"*From Greenland's icy mountains,*" probably the most famous of missionary hymns, was written by Bishop Reginald Heber, an English prelate, who wrote also more than fifty other well known religious songs. Bishop Heber was born in England April 2, 1803, and died in India April 2, 1826. He was bishop of Calcutta, India. In 1806 he gained the Oxford prize with his poem "Palestine." The best known of his other hymns is "Holy, Holy, Holy, Lord God Almighty."

FROM Greenland's coral strand,
Where Afric's sunny fountain
Roll down their golden sand;
From many a plain

They call to deliver

Their hand from error's chain.

What though the spicy breezes
Blow soft over Ceylon's Isle,
Though every pleasure pleases
And only vice is vice?

But with lavish kindness

The gifts of God are strown;

The heathen in his blindness

Bows down to wood and stone.

Can we who souls are lighted
With wisdom from on high,
Can we men brightened
The lamp of life don't?

Salvation, oh, salvation!

The joyful sound proclaim!

Till each remotest nation

Has learned Messiah's name.

Waft, waft, ye winds, his story,

And you, ye waters, roll,

Till like a sea of glory

It spreads from pole to pole;

Till, o'er our ransomed nature,

The Lamb for sinners slain,

Redeemer, King, Creator

In bliss returns to reign.

We are showing Walking Pumps.

The Government survey boat, Ger-
trude, returned yesterday from points
up the Tomoka River, and after a short
stay here, it continued on its journey
southward.

The finishing touches are being ap-
plied to the neat cottage of Mr. and Mrs.
J. D. C. Morris, on Ivy Line. The house
is very convenient and is in every re-
spect an up-to-date dwelling.

Schedule of Steamer Cherokee

The School Board met in regular monthly session last Monday and Tuesday with all members present, and the following business transacted:

W. E. Bulough appeared before the Board, representing the Kingston and Holley Hill schools, and requested that the boundary line of said school district be changed. The Board took no action upon the matter.

A Teachers' Convention was called to meet at DeLand, February 15th and 16th, and all schools ordered closed during those days and teachers instructed to attend said convention. The Superintendent was instructed to employ a lecturer for said association.

A communication from J. R. Cole was read and the matter was referred to the Superintendent with power to act.

The school at Seville was ordered closed, it having failed to report 60 per cent average of the total enrollment.

Communication from the supervisor of the Osteen school read and filed.

The treasurer's books were presented, examined, and found correct, and old warrants ordered cancelled.

Bills occurring against the school fund for the month were audited and paid.

The Board adjourned Tuesday morning till its next regular meeting the first Monday in March.

DAYTONA AND ITS ATTRACTIONS.

DAYTONA is situated upon the west bank of the Halifax River at its farthest expanse and midway between its source at Brevard Bay and its outlet at Mosquito Inlet. It is in latitude 29° 57' 44" miles from St. Augustine and one mile from the Atlantic Ocean, and is acknowledged to be without a rival for beauty among the villages of the South. Its site is upon what is known as high hammock land that was crowned by nature with most royal growth of majestic forest trees, and among these trees is the town of today, with its beautiful cottages and well-graded walks and streets. The result is that all along the wide avenues that intersect the town are lordly live and water oaks and hickories, many of them draped with graceful festoons of the gray Spanish moss, that overarch the street and walks, and among these are interspersed tall tropical palmettos, glossy-leaved magnolias, fragrant bayas and coral-berry holly, and many other varieties, while in many places the wild grape, the trumpet vine and the ampelopsis climb and cling among the branches forming shady bower and adding grace and beauty.

The town lies parallel with the Halifax River, and extends for nearly two miles along the shore. This river is the delight of the angler and the yachtsman and forms one of the town's greatest attractions.

The main avenues that run parallel with or intersect the river are all 100 feet wide, except Beach street, which is about sixty-five feet, but has a half-mile of open, beautiful water abutting upon its eastern side, where the salt waves ebb and flow and along and across which comes the cooling, invigorating and health-giving breezes from off the wide Atlantic, which temper and render the Halifax climate one of the most perfect in the world. Daytona has many miles of well-graded, marshy and sheltered roads and streets, rendering it the

Wheelman's Paradise

and added to these, but a mile away, are thirty miles of smooth, hard beach, that affords an unrivaled course for long-distance cycling and driving or automobile racing. No town of equal size, North or South, numbers so many wheelmen, and cycling is a favorite pastime with the tourists summer and winter.

The Beautiful Cottages that have been erected during the past years and are being built are rendering Daytona as famous for its fine homes as for its beautiful river, trees and avenues, and they are adding yearly to its attractions.

Not the least of these attractions to those securing homes in the South, and ranking second only to healthfulness and perfection of climate, is the fact that its population is chiefly composed of cultivated and intelligent people, accustomed to the refinements of home and social life. Added to these features are good churches, good public and private schools, stores, hotels, laundry, meat markets, novelties, works, an opera house, electric light, street and house illumination, a good telephone system, ice factory, Lily Water Works, and hot and cold baths, etc., and everything else can be procured that is necessary to make life comfortable. An important feature in the healthfulness of this town is the

Water Supply

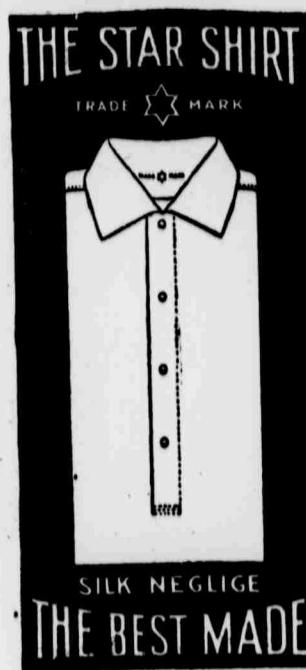

which is derived from numerous flowing wells, of which there are probably 300 in the corporate limits. This flow is secured by boring wells to the depth of from 80 to 120 feet, passing through several strata of rock, and this depth assures purity from all surface contamination. The water is slightly impregnated with magnesia
